Convention Delegates Call Work Undone—Officers at White House.

Memories of days behind the lines in France, when Red Cross nurses and Salvation Army lassies and their women of mercy took some of the sting out of war, were recalled today when delegates to the Women's Overseas Service League reunion met at the White House.

Dressed today in fashionable tweeds, where once they wore the uniforms of the American Red Cross or served in the ranks of the Knights of Columbus workers, or in any of the other women's divisions, they gathered for the second annual convention discussed the progress of the bill before Congress to grant a charter to the league.

Plan Further Usefulness.

The convention is to last three days, during which officers will give reports on the work still to be done in helping the wounded soldiers in the United States. These women do not feel as if their task ended "over there."

Miss Margaret Lambie, chairman of the committee in charge of the conference, said that the delegates at the White House.

"Russia herself is on the bargain count behind which stands Lenin the bandit merchant, to make what he can get and what will serve his purpose in exchange for the heritage of a people rendered helpless by him and his criminal clique."

"American business is asked to join in that helpless escapade, that misadventure, that crime, that mortgaging of that vast domain, and to facilitate its efforts certain American capitalists are mortgaging the world, are willing to sow among their own people the fiendish anti-American propaganda of subsidizing, buying, intimidating, cajoling. There are splendid and notable exceptions, but the great powers are so intermingled, so interlocking combinations have set their faces toward the prize displayed by a people on the verge of ruin."

Proof of Propaganda.

"Bolshevik propaganda has been organized exactly along the lines of pre-war European intrigue, over which nothing was to be made up the old international German and Russian espionage system. It is impossible to exaggerate the danger we are going to make here certain statements on this point for which I have ample proof."

MAN TAKEN TO HOSPITAL
Victim Claims He Was Attacked
on Street—Roomers Hear

Shots In House.

Walter Anderson, thirty-three years old, who told the police he came here from a dining room in the Hotel Providence in Providence, R. I., was taken to Emergency Hospital last night after being wounded by a bullet in the right arm and a bullet in the right leg. He was treated for a dangerous bullet wound in his chest.

Anderson was taken to the Emergency Hospital by Precinct Detective Guy Rone after trying to solve the mystery of the shooting. He was wounded by two bullets that he was on the street when he was shot, but neighbors heard reports of two shots.

It was reported, and there is a bullet hole in the ceiling of the room occupied by Anderson, that he was shot by two men who said they are William J. Mullen, Harry E. Carpenter, Hugh McGuffey, George J. Williams and William J. Anderson, arrested pending an investigation.

A message was sent by the wounded man to his father in Providence, telling him of the shooting. Detectives say they expect to make additional arrests. They found no trace of a pistol in the house.

It was said at the hospital that the wounded man's clothing showed powder burns, indicating the shooting was at close range.

Anderson's statements, which are not widely printed as authoritative, are of great importance to the American administration. It is his understanding, he said, that the United States has no dealing with Russia until there is in that country a government of the people and people put in office by the people. Prime requisites are elections, free press, free assembly and free speech. He said that he existed since Lenin created his autocracy.

Anderson and Secretary Hughes, we may be sure, stands by his splendid declaration that even if fundamental changes are necessary, we will not have any "convincing evidence of the consummation of such changes."

"If it were possible," he said, "the source of democratic faith in the American people, the situation today in relation to bolshevism would be a very different one. Without dispute, but never since the assumption of power by the faithless, ruthless, and unscrupulous conspirators, the conspiracy has the situation in America been so filled with peril."

Anderson said he will appear Saturday to address a mass meeting of union labor organizations on the Landis building in Providence. After the meeting, yesterday's statement developed for the east.

Anderson's statements are of great importance to the American expeditionary forces. The development of the American Expeditionary Forces has been due to his marked ability as an organizer and to his brilliant professional attainments. The chief of staff of the American expeditionary forces during the period of active operations has met every emergency with a decision by his advice and direction. He has materially contributed to the success of the expedition. He has, at all times, enjoyed in full the confidence of the commander-in-chief.

GIRL BAGS MOONSHINERS.

Catches Outlaws After Several Days on Father's Virginia Farm.

MONTRoss, Va., May 1.—Miss Marion English, seventeen-year-old daughter of Lee English, after keeping vigil for several days on her father's Virginia farm, captured moonshiners last night on a shack on her father's farm near Oceanham. Leaving her aged father to tell the tale, she called on the telephone and called Commonwealth Attorney Mayo.
